Please Pre- Register

Fridays, January 21 & 28

12:00pm-12:30 pm Instructor led activities

12:30-1:00pm free play

By nature, children are curious, hands-on learners. At the Skaneateles YMCA and Community Center, we look to engage our learners through opportunities that allow them the ability to make discoveries on their own in guided situations. Challenges and movement activities will be fun and meaningful, while we hope to lead the children to become engaged learners.

The enrichment programs at the Skaneateles YMCA and Community Center will stimulate the creative thought process, initiate dialogue, and problem-solving abilities.

Programs will vary throughout the winter, beginning with basic ideas and becoming more in-depth as the needs change. Don't let your child miss out on one exciting and challenging moment.

This is not a drop-off program, parents and guardians must stay to participate in their children's instructor-led experience.

Our January introductory classes will be open to members only. Class size is limited, Covid protocols will be in place. Class size will be limited, to allow for full class participation and create unique opportunities for creative play.
